## A Note From Ms. Jean

Wow!! That is all I can say about the amazing Fall Festival!! It left me speechless!! This was our biggest attendance yet, and it looks like we raised a record amount for our scholarship fund!! The totals are not in yet, but preliminary numbers have us way ahead of any other year! I'll keep you posted!

Fall is here, and it is my favorite time of year!! For those who start their day on the playground, your child will probably need a jacket or sweatshirt with a short sleeve shirt underneath. It is the time of year to layer in Colorado!

October is right around the corner, and it is Fire Safety Month!! Our wonderful Castle Rock Fire Department will be visiting on October 5 & 6 in both the morning and afternoon. The kids love to see the firefighters and their truck! The firefighters will take about fire safety and dress up in their gear to show kids that they aren't scary, and they are there to help them in an emergency.

Our first set of Parent / Teacher conferences are October 14 & 15. Your child's teacher will be sending out a sign up soon. This is a great time to meet with your child's teacher and set goals for the school year.

Have a wonderful weekend and enjoy this amazing weather!

Blessings,  
Ms. Jean

# Parenting Tips

## Brain Integration—Patterns of Development

How the brain develops is pretty simple really. As parents and care providers, our job is to give them lots of opportunity to move, explore and create. Research has shown that in the case of learning to walk, talk and do the everyday things in life, children need creeping and crawling, exploring and examining, and looking and listening. All of these things help to integrate the brain for the task of reading, writing and arithmetic later in life. Further study showed that there are patterns of development to 6 basic areas—3 dealing with reception and 3 dealing with output.

Reception/Intake (Input):

- ♦ Seeing—culminating in reading
- ♦ Hearing—culminating in understanding spoken language
- ♦ Feeling, with the skin and muscles—culminating in recognition of objects by feeling them

Output

- ♦ Moving—culminating in walking
- ♦ Production of Sound—culminating in talking
- ♦ Hand use—culminating in writing

These 6 channels continue to develop from infancy through childhood, and that a lack of opportunity for development of any one of these channels effect the development of the others. If one stage of the sequence is neglected, the whole channel is affected. That is why it is so important for kids to go through all stages of development and not skip ahead.

## Chapel & Specials

**Chapel— This week we learned about Abraham. God told Abraham to move to a new land, so he and his nephew Lot packed everything up and started their journey.**

**God made a promise to Abraham—that he and Sarah would have many children, grandchildren, great grandchildren....as there were stars in the sky.**

**We sang Father Abraham Had Many Sons**

**This coming week we will continue learning more about Abraham!**
